

## Hot Pepper

Lines developed at AVRDC – The World Vegetable Center

**AVPP0409(PP0437-7506)**

**Pedigree:** Jin'sJoy//HDA249/Milord.

The most outstanding entry in the ICPN16 set, this line includes parents providing multiple disease resistance, heat tolerance, and large fruit size. This line yielded almost as well as check varieties in the cool spring season, but performed poorly in the warm summer trial. Sweet, juicy, crisp fruit have low pungency, and cook well.
