

21 - 22 September 2021

Africa Vegetable Breeding Consortium (AVBC)

ANNUAL WORKSHOP

World Vegetable Center Eastern and Southern Africa | Arusha, Tanzania

The **Africa Vegetable Breeding Consortium Annual Workshop** will change the way you do breeding and business!

- **Learn** about the latest developments in breeding research from the WorldVeg team of internationally renowned plant breeders.
- **Scout** field trials of improved breeding materials to enhance your cultivar catalog
- **Meet** WorldVeg breeders, scientists and other researchers to strengthen your knowledge network
- **Interact** with local seed industry and/or African agricultural research institutions

21 Sept (Tue)	ANNUAL WORKSHOP (presentation, discussions, and field trials observation)
22 Sept (Wed)	Field visits to interact with local seed industry and/or African agricultural research institutions, free of charge and optional. A detailed program will be announced later, by prior registration.

Featured crops

- **AMARANTH**
- **MUNGBEAN**
- **AFRICAN EGGPLANT**
- **PUMPKIN**
- **ONION**
- **TOMATO**
- **PEPPERS (chili and sweet)**

*Seeds of all these AVBC exclusive lines will be made available for distribution to FULL members by or soon after the workshop!

WHO SHOULD ATTEND?

Participation in the workshop is open **only to registered Africa Vegetable Breeding Consortium Companies**. Consortium members (both full or associate membership) are welcome to send representatives to attend the workshop.

As AVBC membership fee is waived, each in-person participant will need to pay a package registration fee of USD 50 to cover basic costs. All Consortium Companies must cover costs of their international travel and hotel expenses.
